## Industrial Sites On Long Term Leases

You can now secure for a long period of years with ample renewal privileges, sites for industrial plants in the very heart of New York's Industrial Center.

Character of Your Neighbors Long Island City is favored by the shrewdest and best

informed manufacturers for plant locations.

Such concerns as The American Sugar Co., Ford-Co.,

General Electric Co., Browster & Co., Saluner & Co.,

Brunswick-Balke-Collender Co., Loose-Wiles Biscuit Co., Steinway & Sone, and many others have established them-selves on all sides of our property—a great many of them the last few years.

Transit and Shipping Facilities Transit facilities include all lines of the Interborough Rapid Transit Co. and Brooklyn Rapid Transit Co., operating over the Queensboro Bridge (which splits the property), and via the Steinway or Belmont Tunnels. When the dual Subway plan is in effect, a Subway station will be located on our property, enabling you to reach Times Square in eight-minutes.

A section of this property was acquired for the Barge Canal Terminal, and will insure this immediate locality becoming the important terminus of (next to the Panama Canal) one of the greatest arteries of trade and commerce the country has ever developed.

This property skirts the greatest labor center in the

United States a situation which conditions can never affect. In short, there can be little discussion regarding the

unusual suitability of this property for industrial plants Send for Free Data

We would be glad to lay before you our prospectus. which not only describes the property minutely, but which outlines a leasing proposition of extraordinary interest to every manufacturer who desires to establish himself in the coming Industrial Center of the Empire State. Write for this little folder. It will interest you even if your plans for a new factory site or extension have not matured
